Greetings!

Happy New Year! I hope everyone had a wonderful holiday season. Ours was very relaxing, but now it is back to work! We've got some exciting news about 1080 Studios, so read on!

Sony HDW F900H

We are so excited to announce the addition of the Sony HDW F900H CineAlta camcorder to our equipment list. This gives us the ultimate flexibility for HD deliverables, European and North American HD Standards,

and multiple frame rates are supported by the F900 and this enables us to offer full HD digital cinematography services. Why not make your next production an HD production!

Here's a funny story about HD....Everytime Bob walks by the TV at home and a commercial or show is being broadcast in HD, he stops and looks at the picture and says, "WOW, look at how crystal clear that looks!"

New Web Site!

Please check out our new and improved web site at www.1080studios.com. I have been working on the web site for what seems like years (although it really was only months) and I am anxious for some feedback! Just don't be too critical, there is still some work to do on it!

1080 Studios Open House

To those of you who made it to our open house in December, a big THANK YOU! The night was snowy and you braved the elements to check out our new digs! If you were not able to make it, we understand, but we still want you to come by and check out our new

space!

New Rate Card

With our new equipment purchases (HD) and added services, we have updated our rate card. If you would like to have a 2008 rate card sent to you, please let us know and we'd be happy to send it to you. Please keep in mind the rates are not written in stone, we will always 'personalize' an estimate according to your needs and budget.

As always, it is a pleasure working with all of our clients and I look forward to another busy year with a lot of great productions!

Stay tuned for the next newsletter which will highlight our new HD 24p Post Production upgrades!

Sincerely,

Julie Tatlock
