Our Studio Has Moved!

We have moved our studio/post facility from the Denver Studio Complex to the Taxi Building in Lower Downtown. Look for our Open House Invitation around the first of December, but...if you don't want to wait, please feel free to give us a call and check out the new pad!

Suite #322 3457 Ringsby Court Taxi Building #2

RT Post Production

Just One Of The Projects We've Been Tackling

RT has recently completed a DVD Tool Kit for Heinemann Publishing Company featuring the teaching curriculum of Stephanie Harvey & Anne Goudvis. This project consists of three twenty-five minute DVDs that highlight their teaching methodologies that have currently been expanded to teaching children in elementary schools. We had also produced and edited their prior instructional tool kit for pre-school aged children.

We also shot and edited a promo piece for The Denver Post "Ride The Rockies" bicycle tour. The piece will be posted on their web site.

Production Highlights

Just to name a few...

Forensic Files requested us to shoot yet another interesting piece in the Springs this summer. No

Democratic National Convention

It will be here before you know it!

RT/1080 is gearing up to be camera ready for the DNC. This convention will be one of the most interesting in our history not only due to the candidates running for the presidency but also all the current issues at hand. We expect to be just as busy as the rest of the city. It is not too early to book 'your' production with us!

RT Productions Name Change to 1080 Studios

With the changing of the seasons, RT Productions will also be under going a change. We have decided

that RT Productions (name only) will change to 1080 Studios, Inc. Nothing else is changing except

air date as of yet, but we will get the word out when the episode will be on.

Check out TLC's "Bringing Home Baby". RT/1080 shot the episodes that are to air October 26 and 29 and there is another episode airing on December 3!

Bob and Zane both headed up to Estes Park in July to shoot The Gospel Music Channel's "Music in the Rockies" conference.

RT/1080's HD, BSP, DVCam and MiniDV cameras have been capturing some great footage! Thanks so much for all of your projects!

the name!

We're excited and a little sad about the change but we decided that to move forward as a full service production company, it was too confusing to use RT Productions and 1080 Studios.

We will also be getting individual email addresses and making some changes to the web site in the coming months.

So, when you call (303) 333-2172 you will still get RT Productions but we will answer 1080 Studios!

As always, 1080 Studios, Inc., looks forward to working with all of you! We anticipate hearing about all your exciting projects that you have coming up!

Have a great fall!

Sincerely,

Bob, Julie, Jon, Zane and Sally
1080 Studios Inc.
