1080 Studios New Camera Sony EX-3

Sony PMW-EX3 XDCAM EX HD Camcorder

We wanted to let you know we have added a Sony EX-3 HD camera to our fleet. This camera allows 1080 Studios to offer full HD production at current SD pricing. The camera allows for interchangeable lenses, which means that we can use our favorite lenses and filters to obtain incredible pictures at a reasonable cost.

We have also been using prime lenses on the camera and achieving the shallow depth of field that was once available only on 35MM film projects! I have some stills and Quicktimes to demonstrate that selective focus and special effects we can achieve.

Feel free to contact us!

*Camera shown with optional lens and accessories
